**Final Reminder**  
**LOD# WSEB 02-118: Response Past Due**

Subject: Public Water System: Epping: Dunkin Donuts (EPA#: 0768100)

Dear Mr. Salema:

On August 28, 2002, the Department of Environmental Services (DES) issued a Letter of Deficiency (LOD) to the subject water system. The LOD was issued in response to bacteria maximum contaminant level (MCL) violations in May 2001, June 2001, and August 2002. The LOD requested the system to take two actions:

1. By September 11, 2002, retain the services of a qualified water system consultant to address the system's water quality problems relative to the recent bacteriological occurrences; and
2. By September 25, 2002, submit to DES for review a copy of the consultant's report including recommendations and an implementation schedule to correct the water system deficiencies.

A copy of the LOD is enclosed for your review. DES has no record of a response to the requirements of the LOD. DES now notes that the water system has incurred another bacteria MCL violation for September 2002, the fourth such violation for the system in sixteen months.

As a result, DES again requests that a qualified consultant examine the system to determine the cause of the bacteria contamination and that a copy of the consultant's report be forwarded to DES for review by **October 25, 2002**. Please send the report to my attention.

If you have any questions, please contact me by phone at (603) 271-2854 or by email at [aleach@des.state.nh.us](mailto:aleach@des.state.nh.us).

Sincerely,

  
**COPY**
